WILLIAMS KASTNER

24/7

TRANSPORTATION EMERGENCY RESPONSE AND CRISIS MANAGEMENT TEAM

AVAILABLE 24/7

The Transportation Practice Team has established an Emergency Response Team to provide clients with crisis management assistance for unexpected incidents arising from the transportation of goods or cargo.

READY TO RESPOND

Emergency Response Team members are ready to respond to accident scenes across the Pacific Northwest on short notice in order to preserve critical evidence, interview witnesses, and communicate with law enforcement and the NTSB when the severity of the accident warrants such action.

RISK MANAGEMENT

Our Emergency Response Team provides clients with 24/7 risk management support and a timely and informed plan of action to minimize the value of any claims and our client's potential exposure.
